

INSIGHT AUTOMATION MATERIAL HANDLING CONTROL SYSTEMS AND INTEGRATION

Overview

Insight Automation is a leading system integrator for material handling systems. Specializing in the development and implementation of automated, no-programming, integrated control systems for the warehouse and factory floor, Insight Automation is a leading provider of configurable controls for motor-driven roller systems.

Founded in 2000 in Erlanger, Kentucky, Insight Automation is staffed by experienced engineers who have hundreds of years of collective experience in material handling, systems integration and controls markets. Insight Automation has worked with a variety of Fortune 500 companies in industries such as manufacturing, distribution, pharmaceutical, food and beverage, and postal/shipping. Over 30,000 modules have been installed to date and an additional 45,000 modules are scheduled for installation through 2010.

Typical projects feature challenges such as the management of real-time controls in high speed sortation, order picking and fulfillment, manufacturing process systems, distributions systems, data acquisition systems and heavy-duty lift controls.

Customers include USPS, Northrop-Grumman, Frito-Lay, Kellogg, Starbuck's, Lexmark, Oneida, Square-D, Phillips Healthcare, Tyco Healthcare, Schwann Foods. Additional information is available at www.insightautomation.cc.

Products

Solutions developed and implemented by Insight Automation help customers reduce time and material costs. Insight
