

## **INSIGHT AUTOMATION MATERIAL HANDLING CONTROL SYSTEMS AND INTEGRATION**

### **Overview**

Insight Automation is a leading system integrator for material handling systems. Specializing in the development and implementation of automated, no-programming, integrated control systems for the warehouse and factory floor, Insight Automation is a leading provider of configurable controls for motor-driven roller systems.

Founded in 2000 in Erlanger, Kentucky, Insight Automation is staffed by experienced engineers who have hundreds of years of collective experience in material handling, systems integration and controls markets. Insight Automation has worked with a variety of Fortune 500 companies in industries such as manufacturing, distribution, pharmaceutical, food and beverage, and postal/shipping. Over 30,000 modules have been installed to date and an additional 45,000 modules are scheduled for installation through 2010.

Typical projects feature challenges such as the management of real-time controls in high speed sortation, order picking and fulfillment, manufacturing process systems, distributions systems, data acquisition systems and heavy-duty lift controls.

Customers include USPS, Northrop-Grumman, Frito-Lay, Kellogg, Starbuck's, Lexmark, Oneida, Square-D, Phillips Healthcare, Tyco Healthcare, Schwann Foods. Additional information is available at [www.insightautomation.cc](http://www.insightautomation.cc).

### **Products**

Solutions developed and implemented by Insight Automation help customers reduce time and material costs. Insight Automation has developed a range of flexible solutions that can be customized with a minimum of engineering effort required to accommodate a variety of applications.

Insight Automation products include:

- ConveyTrax® Motor-driven Roller System
- ConveyNet® Modular Control Hardware
- ConveySort® Sortation Management Control Systems
- ConveyView® Diagnostic Monitoring Control Systems
- ConveyRoute® Pick & Pass Sortation Control Systems

### **Strategic partnerships**

Careful alignment with strategic partners enables Insight Automation to quickly and efficiently address a wide range of industry opportunities.

Kyowa USA has named Insight Automation the exclusive provider of its new Pulse™ Rollers in North America. Pulse Rollers are the culmination of over 50 years of experience in gear machining, gearbox design and manufacturing, coupled with the latest advancements in DC motor design and manufacturing. The end result is the most efficient family of motor-driven roller currently available. Manufacturing, assembly and application-specific testing will be handled directly by Kyowa, while Insight Automation will manage sales and application support initiatives.
