June 2, 2007

## **Insight Automation announces Interroll motor Compatibility with ConveyTrax® CRSC Speed Control Module**

**NEW ConveyTrax CRSC** provides unparalleled control of *INTERROLL EC100 & EC400 motor drive rollers*. These new motors (formerly the HTBL series) designed by Interroll manufacturing offer superior torque characteristics, speed, performance and energy efficiency in motorized roller conveyor applications unmatched in the industry. Teamed with ConveyTrax®, Modular Networked Control products for 24volt zoned accumulation conveyor is the world's **ONLY No Programming** conveyor control system provides the simplest most efficient method for controlling all devices typically associated with a motorized roller conveyor application.

The feature packed architecture significantly reduces hardware and installation costs and improves system implementation time. With simple mouse clicks on menu commands, the module is configured to control any brand of motor: standard, high torque, or brake motor. Control motor speed, acceleration, deceleration and monitor current draw, actual speed, thermal protection, performance, of the motors all from a single point.

Founded in 1999, Insight Automation Inc. is the industry leader in innovative control solutions and offers a wide range of unique modular control solutions for conveyor systems, such as ConveyNet® and ConveySort™. NOW with the introduction of ConveyTrax CRSC a new level of flexibility is being brought to the conveyor controls market.
